EDUCATION

Fabtech College of Engineering, Sangola

Degree in Computer Science & Engineering Bachelors

CGPA: 7.45

sangola ,solapur ,Maharashtra

July 2022 - July 2026

M V High School & Junior Colleg

Science HSC

Percentage: 60.66%

Umadi, jath, Maharashtra

2020 - 2022

New English School Madgyal

Degree in Science SSC

Percentage: 71.40%

Madgyal, jath, Maharashtra

2019 - 2020

SKILLS

Programming Languages: Java, JavaScript, C, HTML, CSS

Libraries/Frameworks: React, nodeJs, ExpressJs, bootstrap

Tools / Platforms: Eclipse IDE, VS Code, GitHub, Git, spline, IntelliJ IDEA

Databases: SQL, MongoDB

PROJECTS / OPEN-SOURCE

truck Management | [Link](#)

JavaScript, React, Bootstrap, Spline, NodeJS, Express, MongoDB

The Truck Management System is a web-based application that allows users to book trucks for deliveries and manage schedules. After login, each user can view only their own bookings and cancel them if needed. The system uses Spline to provide an interactive 3D interface, enhancing the visual experience and improving logistics efficiency.

wanderlust | [Link](#)

Node.js, MongoDB, EJS, JavaScript

Wanderlust is a modern tourism web application built with Node.js, MongoDB, EJS, and JavaScript to offer a smooth, interactive, and scalable travel planning experience. It features destination discovery, custom itineraries, and a user-friendly interface optimized for performance. Integrated tools and curated modules make navigation effortless for todays travelers.

AI Resume Builder | [Link](#)

React, Node.js, Express.js, MongoDB, OpenAI API

AI Resume Builder is a full-stack web application that helps users generate professional, personalized resumes using AI-powered suggestions. Built with React for the frontend and Node.js + Express for the backend, it integrates MongoDB for data storage and OpenAI API to enhance content generation. Users can create, edit, and download resumes with intelligent assistance tailored to their career goals.
